ACCU-PRINT™

Semi-Automatic T-Shirt and Bag Printer

ADVANTAGES

- Pneumatic Squeegeelizer™ ensures uniform print pressure across entire image

- Independent squeegee and floodbar speeds

- Tool-free squeegee and floodbar pressure controls

- Single-point off-contact adjustment with "0" off-contact capability

- Universal masterframe accepts all frames

- Lock-in print head for accurate registration

- Independent, locking squeegee and flood-bar angle adjustments

- Open access for easy screen viewing and setup

- Heavy-duty casters for easy shop mobility

- Dwell timer or foot pedal control

- Automatic, adjustable peel rate

- Wraparound safety bar with 4-point microswitch activation

AWT's versatile Accu-Print™ T-shirt and Bag Printer is the screen printer's choice for printing with accuracy and ease on t-shirts, cloth bags, towels, banners and other textiles. Available in two popular print sizes and with an optional high-speed indexer that can significantly increase output, allowing screen printers to access expanding markets and serve new customers.
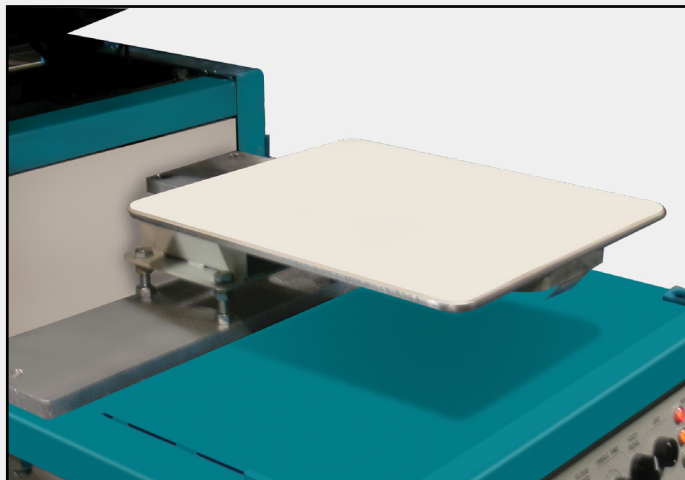

The Accu-Print T-shirt and Bag Printer features an adjustable stroke length and a universal masterframe that securely locks into place for precise registration and outstanding print repeatability. A motor-driven carriage ensures a smooth print stroke. Tool-free squeegee and floodbar pressure adjustment is standard, and AWT's patented Squeegeelizer™ assures uniform print pressure across the entire squeegee blade, delivering consistent tone throughout the image.

The quick-release Stay-Flat™ aluminum pallet is heat- and warp-resistant, extremely durable, and built to last a lifetime. Hundreds of optional specialty pallets are available for printing on an extensive range of garments and promotional products.

Versatile. Reliable. Efficient.
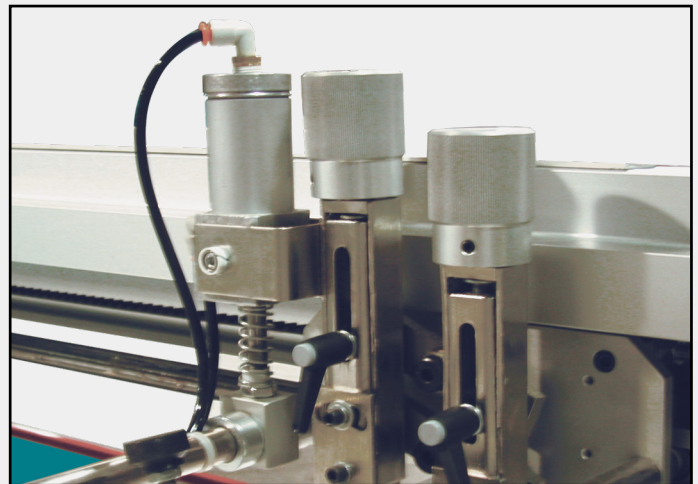

Standard Features

- Aluminum Stay-Flat™ pallet with heat-resistant rubber surface
- Lock-in print head
- Independent squeegee and floodbar angle adjustments
- Tool-free squeegee and floodbar pressure controls
- Independent squeegee and floodbar speed controls
- Patented quick-release pallet system
- Single point off-contact adjustment
- Automatic adjustable peel
- Automatic Squeegeelizer™
- Universal masterframe
- Safety package with 4 U.L.-approved micro sensors
- 120V, 1Ph, 60Hz

Options

- Pneumatic front or rear clamps — provide smooth, instant frame locking
- Wing tip floodbar — captures ink for greater efficiency and easier cleanup
- 220V, 1Ph, 50Hz electrical conversion
- Hundreds of specialty pallets avaible

Pneumatic "Squeegeelizer" automatically adjusts for uniform squeegee pressure.

Aluminum Stay-Flat™ quick-release pallet with heat-resistant rubber surface.

User-friendly, upfront control panel for operator convenience.
