

DURO-TANK™

Stainless-Steel Recirculating System

20-, 50-, and 80-gallon
Tanks Available

- 100% Air-operated System
- Cleans Inks from Frames
- Using Biodegradable Chemistry

Reduces Flammable Chemical Consumption by 80%

Advantages

- New on/off valves provide easy removal of spent solvent
- Stand-alone pump allows integration of outside drum chemicals
- Reduces solvent consumption up to 80%
- Stainless steel construction for long life
- Permanent stainless steel filters can be removed and easily cleaned for reuse
- Remove ink or coatings from frames using non-flammable, biodegradable chemistry
- Includes scrub brush and wand for cleaning screens
- Tank can be used with any washout sink and biodegradable chemistry

The Duro-Tank™ is a stainless-steel recirculating system designed for use with washout sinks. With the Duro-Tank system, biodegradable chemistry is applied directly to screens and then allowed to drain back into the tank, where the chemistry is filtered and recirculated for extended use. As a result, the Duro-Tank reduces the amount of flammable chemicals required to clean screens by 80% or more!

The 100% air-operated system features a permanent filter assembly with removable filter screens for easy maintenance. A wand and scrub brush are also included for efficient chemical application and ink removal. The DTSS-20 tank holds approximately 20 gallons (75 liters) of solvent, The DTSS-50 offers a capacity of 50 gallons (189 liters); an 80-gallon (303 liters) tank is also available.

Ideally paired with A.W.T.'s biodegradable Safe-T-Wash,™ the Duro-Tank can also be combined with any of A.W.T.'s Kleen-View™ Washout Sinks.

DURO-TANK™ STAINLESS STEEL RECIRCULATING SYSTEM

20-gallon Tank

50-gallon Tank

80-gallon Tank

Advantages

- All stainless steel construction
- Unit can be used with any washout stand
- Scrub brush and wand included

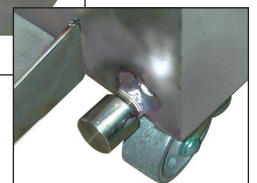

Options and Accessories

- New! Solvent draining system allows easy removal of spent solvent
- 5-ft replacement wand/handle
- Replacement scrub brush
- Additional stainless steel filters
- Solvent use upgrade

Drain plug simplifies periodic changes of the cleaning solution

KLEEN-VIEW AUTOMATIC™ Closed Loop Screen Cleaning, Ink Removing & Filtering System

- Fully enclosed system
- 100% air operated and safe to use
- Stainless steel heavy-duty construction
- Translucent fiberglass back panel
- Double-sided closed loop chemistry sprayer with variable speed controls

CAT. NO.	MAX FRAM O.D.
KV-58SSA	36 X 54" (92 x 138 cm)
KV-80SSA	52 X 70" (132 x 178 cm)
KV-100SSA	72 X 96" (183 x 244 cm)
KV-130SSA	77 X 124" (214 x 331 cm)

KLEEN-SCREEN™ Automatic Emulsion Removal System

- Solvent application and high-pressure rinsing within a single stainless-steel unit
- Electric/pneumatic nozzle system provides two-sided coverage
- Closed-loop re-circulating system filters solvent for continuous usage

CAT. NO.	MAX FRAM O.D.
KS-58SSA	36 x 54" (92 x 138 cm)

THE A.W.T. WORLD TRADE GROUP

*Combining state-of-the art engineering expertise and creativity
with outstanding customer service to provide quality, consistency, and value
to the screen printing industry for more than 40 years*

The A.W.T. World Trade Group offers screen printers a complete manufacturing source for machinery, parts, supplies, accessories, and remanufactured equipment. A.W.T. develops comprehensive systems that work efficiently and economically to avoid printing errors, reduce production downtime, and keep your operation profitable. Experience has shown that utilizing a single manufacturing source greatly reduces potential equipment incompatibility issues.

Our experienced sales, engineering, and technical support personnel will assist you in selecting the optimal screen printing system and equipment for your company's particular needs, or with ordering supplies and accessories from our extensive inventory.
