

DURO-TANK™

Stainless Steel Recirculating System

ADVANTAGES

- Efficiently removes inks or coatings using non-flammable, biodegradable chemistry
- Reduces consumption of potentially hazardous solvents by 80%
- Standalone pump facilitates easy integration of outside drum chemicals
- Reusable stainless steel filters save time and money
- Scrub brush and wand included
- Can be used with any washout sink or stand
- Optional Easy Solvent Extraction™ saves time and improves workplace safety
- Heavy-duty construction for years of reliable service

The Duro-Tank™ from AWT is a stainless steel recirculating system designed for use with all washout sinks and stands. The exclusive design of the Duro-Tank applies biodegradable chemicals directly to screens and drains them back into the holding tank, where they are filtered and recirculated for extended use. Flammable chemical consumption is reduced by 80% or more.

The Duro-Tank's air-operated system features a permanent stainless steel filter assembly with removable filters for easy maintenance. A wand and a scrub brush are included for chemical application and ink removal.

Ideally paired with AWT's biodegradable Safe-T-Wash™, the Duro-Tank can also be combined with any of AWT's Kleen-View™ Washout Sinks for optimal screen cleaning

DURO-TANK™

Stainless Steel Recirculating System

Standard Features

- 100% air-operated system
- Non-flammable, biodegradable chemistry
- 20-, 50-, or 80-gallon holding tank
- Easy-access, reusable stainless steel filters
- Scrub brush and wand
- System can be used with any washout sink or stand
- Heavy duty casters
- All-stainless steel construction

Options and Accessories

- Easy Solvent Extraction™
- Solvent use upgrade
- Replacement wand/handle
- Replacement scrub brush
- Replacement hose
- Replacement stainless steel tank filter
- Replacement stainless steel pump filter
- Custom-size units available

Specifications

CAT. NO.	DESCRIPTION	WEIGHT
DTS-20	Duro-Tank System with 20-gallon tank, permanent filter assembly, cover, wand, and scrub brush	150lbs (68.18kg)
DTS-50	Duro-Tank System with 20-gallon tank, permanent filter assembly, cover, wand, and scrub brush	300lbs (136kg)
DTS-80	Duro-Tank System with 80-gallon tank, permanent filter assembly, cover, wand, and scrub brush	400lbs (182kg)

Custom sizes available; call for details

Compressor and Pressure

- 7.5 HP; 100 PSI; 25cfm
