

FRAME-MATE™

*Moving Ahead
With Technology*

Mobile Frame or Parts Rack

ADVANTAGES

- Easily store or move frames, pallets or any rigid panel or substrates
- Free up floor space
- Heavy-duty swivel casters provide easy mobility
- Wood, aluminum or roller frames fit easily on rack
- Easy access to the heaviest frames
- Choose a model with 12 openings that accepts substrates or frames up to 2-1/2"-thick (6.4 cm); or one with 6 openings that accepts substrates or frames up to 4-1/4"-thick (10.8 cm)

The Frame-Mate™ is the handy solution for storing and moving heavy or bulky screen frames or any rigid part.

Built of durable steel and equipped with heavy-duty swivel casters, the mobile rack can handle wood, aluminum or roller frames with up to 50 x 60" (127 x 152 cm) O.D., or even larger, depending on the shape.

In addition, the Frame-Mate is an excellent choice for storing pallets or pallet attachments. The mobile rack can also provide post-curing storage of POP displays and other rigid substrates, freeing up floor space.

RF-5061	Mobile Frame Rack Accepts 6 frames to 50 x 60" (127 x 152cm) O.D., 4¼" thick (10.79cm)

OTHER A.W.T. PRODUCTS

BLOCKOUT™

Water Soluble, Flexible

Fast drying, water soluble red blockout for use with solvent resistant films and emulsions for pinhole free blockout on all fabrics. It has excellent flexibility, is non-cracking, resists humidity, prevents sagging screens and does not become tacky in any weather.

LIQUID SEAL™

Fabric-to-Frame Adhesive

Flexible and strong. Adhere fabric to frames, seal wood frames, blockout screens and eliminate ink seepage. Water and solvent resistant, Liquid Seal can be used with all fabrics and frames.

TACK-AWAY™

Lint & Dust Removing Cloth

Removes lint, dust, sand, dirt and other airborne particles from metals, plastics, wood and other substrates prior to printing. Made from 100% cotton, anti-static cloth resists spontaneous combustion and is non-toxic and safe to use. Always remains soft and tacky, but never leaves any residue on material.

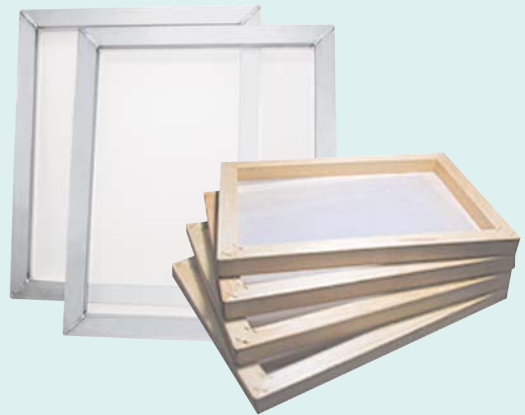

SCREEN PRINTING FRAMES

- Completely assembled
- With or without mesh

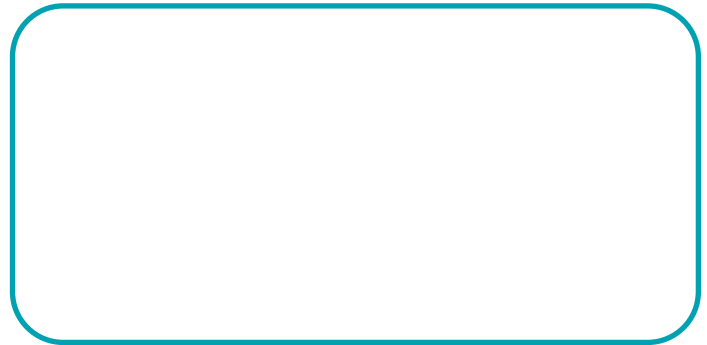

Choose wood, Lifetime™ aluminum, or self-tensioning

A.W.T. manufactures these frames for universal use. Stretch fabric with cord, staples or frame adhesive. Different size lumber is available for hand and machine screen printing or specialty applications. Aluminum frames have welded corners and are roughened on one side for easy fabric adhesion.

All wood and aluminum frames are made to order in any size for any application. We stretch any screen mesh you specify. A.W.T. is a direct importer of screen fabrics from the finest mills in the world.
