

# ACCU-LIFT™

## Automatic Gripper Take-off System

Accu-Lift™ Take-off in-line with an Accu-Print High-Tech Micro™ printer and an Accu-Cure™ UV dryer.

## ADVANTAGES

- Adjustable pick-up and drop-off speeds
- Adjustable drop point
- Fully adjustable side-to-side gripper positioning
- Independent speed control of pick-up and delivery cycles
- Patented adjustable in-out gripper control allows pick-up of irregularly shaped edges
- Gripper pressure is easy to control for handling different substrates
- Easy retrofit of additional gripper bars
- Stock drop-off point is adjustable
- Easily installs on all AWT Take-off prepared presses

Designed to operate with the AWT Accu-Print High-Tech™ Series of Screen Printers or any press, foreign or domestic, without a take-off.

The Accu-Lift™ Take-off system automatically delivers stock to the dryer conveyor. The pneumatically driven system operates smoothly and quietly, handling substrates (paper, plastics, masonite, aluminum, etc.) with ease. Separate controls for pickup and delivery cycle speeds provide efficient synchronization with press settings. Gripper bars are adjustable both from side-to-side and in-and-out. Gripper gap tension is easily set to accommodate varying stock thickness. Additional gripper bar assembly kits are available for retrofitting.
